NOT CLASSIFIED AS HAZARDOUS ACCORDING TO NOHSC CRITERIA

1. Identification of the substance/preparation and company
   
   Product:
   **Sigunit L53-AF**

   Recommended use:
   Alkali-free liquid set accelerator for shotcrete.

   Manufacturer/supplier information:
   Manufacturer/supplier: Sika Australia Pty Ltd
   Street/postbox: 55 Elizabeth Street
   Town/city and Post Code: WETHERILL PARK NSW 2164
   Country: AUSTRALIA
   Phone: (02) 9725 1145
   Fax: (02) 9725 3330
   General information Operations Manager
   Emergency information phone: 1800 033 111

2. Composition/information on ingredients
   
   Chemical characterization:
   Aqueous solution

   Hazardous ingredients:
   Ingredient | CAS No | Concentration
   --- | --- | ---
   - | - | -

3. Hazard identification
   
   Hazard Category:

   Risk Phrase(s):

   Safety Phrase(s):

4. First-aid measures
   
   Inhalation:
   Remove victim from exposure - avoid becoming a casualty. Remove contaminated clothing and loosen remaining clothing. Allow patient to assume most comfortable position and keep warm. Keep at rest until fully recovered. Seek medical advice if effects persist.

   Skin contact:
   If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. If swelling, redness, blistering or irritation occurs seek medical assistance.

   Eye contact:
   If in eyes wash out immediately with water. In all cases of eye contamination it is a sensible precaution to seek medical advice.

   Ingestion:
   If poisoning occurs, contact a doctor or Poisons Information Centre (Phone Australia 131 126, New Zealand 0800 764 766). Rinse mouth with water. If swallowed, do NOT induce vomiting. Give a glass of water to drink. Never give anything by the mouth to an unconscious patient. If vomiting occurs give further water. Seek medical advice.

   Notes to physician:
   Treat symptomatically.
5. Fire-fighting measures

Specific hazards:
Non-combustible material.

Special protective precautions and equipment:
Not combustible, however following evaporation of aqueous component residual material can burn if ignited. On burning may emit toxic fumes. Fire fighters to wear self-contained breathing apparatus and suitable protective clothing if risk of exposure to vapour or products of combustion.

Suitable extinguishing media:
Not combustible, however, if material is involved in a fire use water fog (or if unavailable fine water spray), foam, dry agent (carbon dioxide, dry chemical powder).

6. Accidental release measures

Small Spills:
Wear protective equipment to prevent skin and eye contamination. Avoid inhalation of vapours. Wipe up with absorbent (clean rag or paper towels). Collect and seal in properly labelled containers or drums for disposal.

Large spills:
Slippery when spilt. Avoid accidents, clean up immediately. Wear protective equipment to prevent skin and eye contamination and the inhalation of vapours. Work up wind or increase ventilation. Contain - prevent run off into drains and waterways. Use absorbent (soil, sand or other inert material). Collect and seal in properly labelled containers or drums for disposal. If contamination of sewers or waterways has occurred advise local emergency services.

7. Handling and storage

Handling:
Avoid eye contact and repeated or prolonged skin contact.

Storage:
Store in a cool, dry, well-ventilated place and out of direct sunlight. Store away from incompatible materials described in Section 10. Keep containers closed when not in use - check regularly for leaks.

8. Exposure controls/personal protection

National occupational exposure limits:
No value assigned for this specific material by the NOHSC Australia.

Biological Limit Values:
As per the “National Model Regulations for the Control of Workplace Hazardous Substances [NOHSC: 1005 (1994)]” the ingredients in this material do not have a Biological Limit Allocated.

Engineering measures:
Natural ventilation should be adequate under normal use conditions.

Personal protection equipment:
OVERALLS, SAFETY SHOES, SAFETY GLASSES, GLOVES.

Wear overalls, safety glasses and impervious gloves. Due to variations in glove construction and local conditions, the user should make an assessment of the appropriate gloves to use. Wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storing or re-using.
9. Physical and chemical properties

Appearance:
- Physical state: liquid
- Colour: grey
- Odour: N Av

Data relevant to safety:
- Solubility: Miscible in water.
- Specific Gravity (20 °C): approx 1.48
- Relative Vapour Density (air=1): N Av
- Vapour Pressure (20 °C): N Av
- Flash Point (°C): N App
- Flammability Limits (%): N App
- Autoignition Temperature (°C): N App
- Melting Point/Range (°C): N A
- Boiling Point/Range (°C): N A
- pH: approx 3

(Typical values only - consult specification sheet)

N Av = Not available                N App = Not applicable

10. Stability and reactivity

Chemical stability:
This material is thermally stable when stored and used as directed.

Conditions to avoid:
- Elevated temperatures.

Incompatible Materials:
- Oxidising agents.

Hazardous decomposition products:
- Oxides of carbon and nitrogen, smoke and other toxic fumes.

Hazardous reactions:
- No information available.

11. Toxicological information

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Acute Effects:
- Inhalation: Material may be irritant to mucous membranes and respiratory tract.
- Skin contact: Contact with skin may result in irritation.
- Eye contact: May be an eye irritant.
- Ingestion: Swallowing can result in nausea, vomiting and irritation of the gastrointestinal tract.

Long Term Effects:
- No information available for product.

Acute toxicity / Chronic toxicity:
- No LD50 data available for the product.
12. Ecological information
   Avoid contaminating waterways.
   
   Ecotoxicity:
   No information available.
   
   Persistence and degradability:
   No information available.
   
   Mobility:
   No information available.

13. Disposal considerations
   Refer to State/Territory Land Waste Management Authority.

14. Transport information
   ADG/ADR/RID
   Not classified as Dangerous Goods by the criteria of the ADG Code.
   
   IMDG
   Not classified as Dangerous Goods by the criteria of the IMDG Code for transport by sea.
   
   IATA
   Not classified as Dangerous Goods by the criteria of the IATA Dangerous Goods Regulations for transport by air.

15. Regulatory information
   Poisons Schedule (Aust):
   Not applicable.
   
   All the constituents of this material are listed on the Australian Inventory of Chemical Substances (AICS).

16. Other information
   This Material Safety Data Sheet has been prepared by Chemical Data Services Pty Ltd on behalf of its client.
   
   Reason(s) For Issue: Revised
   
   Material Safety Data Sheets are updated frequently. Please ensure that you have a current copy. MSDS may be obtained from the following website: [www.sika.com.au](http://www.sika.com.au)
   
   The information contained in this Safety Data Sheet corresponds to our level of knowledge at the time of publication. All warranties are excluded. Our most current General Sales Conditions shall apply. Please consult the Technical Data Sheet prior to any use and processing.
